

(a) Constraint-wise GP product

Uses both continuous constraint margins

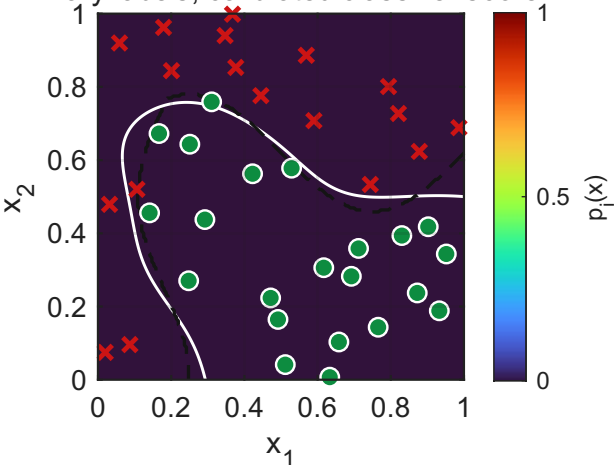

(b) Bernoulli GP classification

Binary labels; ell = 0.35, $\sigma_{\text{f}} = 3.50$

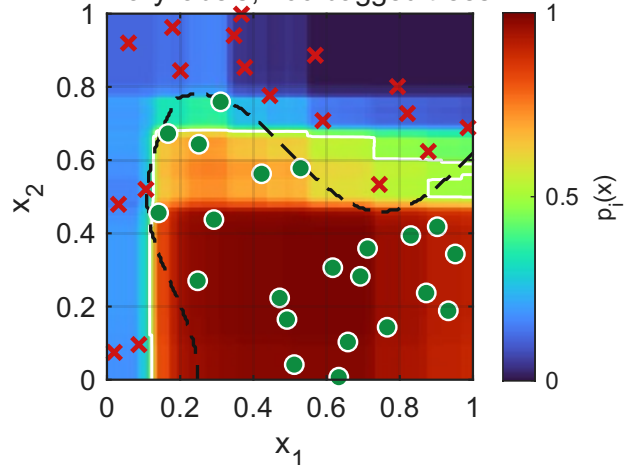

(c) Probabilistic RBF SVM

Binary labels; calibrated classifier score

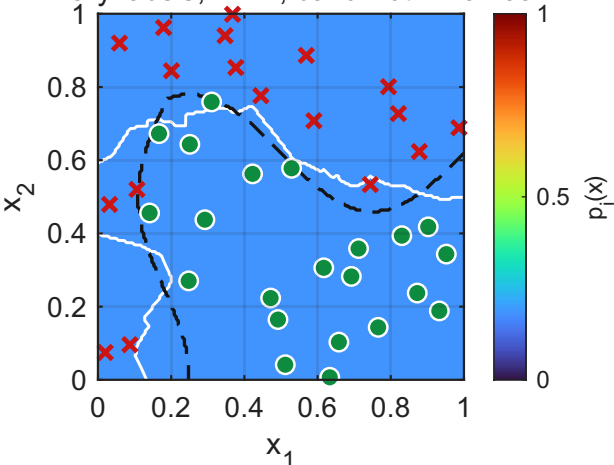

(d) Random-forest vote fraction

Binary labels; 200 bagged trees

(e) Weighted 7-nearest neighbours

Binary labels; $k = 7$, bandwidth = 0.268

(f) Neural-network ensemble

Binary labels; mean of 8 classifiers
